

For immediate release

CTS Inc. becomes a Master Distributor of Telmar Network Technologies office telephones.

Oakville, Ontario, Canada, June 5, 2008-- CTS Inc. is proud to announce it has reached a master distribution agreement with Telmar Network Technologies owner of a licensing agreement with NORTEL in Canada for the production of remanufactured Nortel telephones. This agreement grants CTS Inc. with the Canadian distribution rights with Telmar Network Technologies and provides a premier distributor status.

Telmar remanufactures a full line of Nortel telephones with exacting quality control standards. The products CTS Inc. will offer are identical to the ones bearing the "Second to None" label, marketed by Telmar to authorized Nortel dealers. The Telmar product line will be offered to both our Dealer network and to the End-User community. Scott Carrothers, President of CTS Inc. said "This is an additional opportunity for us to deliver exceptional value and savings to our customers".

CTS Inc. is already a major distributor of "best in class" Jabra headset and Polycom videoconferencing products and services." The addition of these state of the art telephony products to our existing line of products simply reinforces our position of leader in the telecommunication products distribution market. When people deal with CTS Inc. they rest assured that they will get the best value in the industry" added Jean Lapointe, Marketing Manager.

These Nortel units will carry the "AGAN" (As Good As New) label created and successfully branded in the United States by Telpro, Telmar's US premier distributor, and will be accompanied by a 2 years warranty against all defects in material and workmanship

For more information on the above announcement, contact Jean Lapointe, Marketing Manager, CTS Inc. by phone at 1.888.827.7200 or 905.827.7200, by email at info@corptel.com or visit our website: www.corptel.com
